around zoo facilitates this process. Battery operated trolleys are available to facilitate children and infirm people to go around the park. For supply of drinking water several water taps have been provided. Water coolers have also been fixed at four places. Ministry of Environment And Forests does not encourage eating houses and cafeterias inside the zoo because of the fact that in past there have been deaths of animals due to consumption of half eaten food in polythene bags. However, one cafeteria has been allowed inside the zoo. Also, apart from a Zoo Canteen, there are several cold drinks and tea shops outside the gate of the zoo. Trained guides are available in the zoo to take the visitors around.
